

-  The VUNO AI is software that diagnoses eye diseases with artificial intelligence.
-  To use the VUNO AI software, you **MUST** register the license code for VUNO AI.
-  You can register the license code to HOCT setting screen.

If the license of VUNO AI is normally registered and the license is valid, you can check the pop-up window as shown below.

Click the VUNO AI button.

Afterwards, you can check the disease of the fundus by area.
