Description

Designed with the user and patient in mind

[Click here to view the pdf brochure](#)

The slim profile of the Tonometer head reduces patient anxiety and allows the clinician to maintain the all important visual contact with the patient.

Fast and efficient to use

The colour alignment screen and ultra smooth alignment system gives even the novice user confidence to make rapid and accurate measurements. As with other Pulsair Tonometers there is no measurable cost of consumables - no drops, no single use probes or tips.

Stylish

The soft colour scheme and compact design allow the Pulsair Desktop to blend seamlessly into the clinical environment.
